The 2019 Annual Conference of Chinese Society of Microbial Ecology was held from Oct 28 to Oct 31 in Changsha, Hunan, China. The conference was comprised of 24 keynote presentations, 155 session presentations and 106 posters, about 1,000 attendees.

Two seminars of bioinformatics analysis in microbial ecology have been held in Nanjing and Beijing in Jun and Nov, 2019. Total 120 young scientists and Ph.D candidates from more than 60 universities and research institutes across China attended these two seminars. Under the sponsorship from ISME, the ISME logo was used in the manuals of the seminars.
